SUMMER'S END For many people, the end of summer means a return to the routines of work or school. For others, the rustling of the autumn leaves brings instead the exhilaration and excitement of a new and uncertain future. New job, new school, new place, ready or not, the future is here for all of us. Fall signifies change. Re-birth and a fresh chance for anyone willing to take it. But don't forget to slow down from time to time, relax and enjoy the beauty the season has to offer.

HUMANE SOCIETY REMINDER In only seven years, one cat can produce over four hundred thousand cats, one dog can produce over six hundred thousand dogs! Who will feed and care for those dogs and cats? If not you, then act now and spay or neuter your dogs and cats. Give your animals proper food and water and exercise. Get up-to-date vaccinations to guard against illness or disease. Don't leave your pet trapped in a car with the windows rolled up. Don't leave your pet tethered outside with no protection from the elements or miscreants.

Care for your animals. They will return your love a thousand fold.

WHO'S WATCHING YOUR COTTAGE? Here are a few tips for closing up the cottage. Make a final safety inspection. Check for weather-proofing of roof, windows & doors. The weather may be nice now, but winter can take a toll. Look for weak points open to damage from heavy snow, large rainfalls & falling limbs. Have a maintenance plan in place to help keep your summer home in good shape. Arrange for a friend or pay a local person or property management firm to periodically drop by your property. They should look for evidence of fire, vandalism, break-ins as well as checking gas, water, electricity, pipes and especially septic systems! Any valuables including stereo equipment & alcohol should be kept out of sight, preferably locked up, to deter break & entry. Have visible locks on all doors & windows. For extra security and depending on the value of your property, install alarm systems, timed lights, motion detectors and/or video surveillance systems. Strategically-placed security warning signs or stickers will help reduce the chance of theft or vandalism. Remembering these small details can help prevent a lot of time, money & frustration later on.
